

WESTON TROPHY COMPETITION 1972

BARRIE 74.4%
COVERED BOX.

Exquisite piece of work, but the material chosen will not stand up to wear. Feet could have been leather rather than metal.

GREEN TRAY
MEDALLION

A pleasing article, well finished, skilfully executed. An interesting MOD piece. Edges well finished, and cord is smoothly cut.

CANDLE HOLDER

Unique concept for a heavy candle. Good dye job with well polished edges.

LETTER & PEN DESK SET

Moulded box construction, beautifully finished. Practical and pleasing piece that would grace any desk. The base is sole leather.

HAMILTON 78.5%
CANDLE HOLDERS

Pleasing design with metal cups covered in an interesting way. Centre of balance should have been studied, as they tip too easily.

COVERED BOTTLE

Striking colors. Design is suitable for the shape of bottle, wrinkles at bottom are unavoidable with this particular leather.

WALLET
MASK

A slim morocco wallet, almost perfect. Beautifully laced. Very interesting personality, this piece of fun leathercraft is smoothly moulded.

HANGING WEED POT

A novel use of Cuir Bouille. The saddle stitching is excellent. A very elegant piece. This was done on a wooden form.

LONDON 67.6%
BOOK RACK
BUTTERFLY PIN

A useful article. Carving could have more depth. Well made but too small an article for Weston Trophy competition.

GARDENIA PIN

Edges well finished, but all over gloss gives an artificial look. More suitable as a sale piece than an Exhibition piece. Very nice piece of inverted carving. Stamped background detracts rather than enhances.

CARD CASE

Plain and good looking piece of work. Just enough design to add interest. Leather covered screw posts are suitable to the article.

ALBUM

TORONTO 81.2%
MASK

Well moulded and dyed. Fingernail marks should be avoided. The background detracts from the piece.

PEN SET
HANDBAG

Pleasing design. Elegantly dyed and finished. Modern concept of soft leather. Detail well done. Saddle stitching on loops excellent. Very light to carry.

PLAQUE

Decoration applied from copper etched plate. Beautiful sample of splatter dying and finishing.

VASE

Cuir bouille. Excellent craftsmanship and saddle stitching. Recessed stitching on base would reduce wear on thread. Vase has hose running through to hold fresh flowers. Design could have been livened by extending one arm of vase.

WOODSTOCK 77.2%
ALBUM

Functions very well. Interesting cover, but with such a design attention should be paid to the perspective.

DEAWSTRING PURSE

Pleasant little bag to carry. Carving could have had more depth.

HANDBAG

Good color job with well finished stitching, but an elongated flap like this requires a different type of fastener. Gussets are too heavy at base to permit proper fitting.

DRESSER CADDY
BOOKENDS

Well moulded with well finished edges. Very attractive and well weighted. Artistically designed. Lovely color job.
