Notes from the Editor...

It's been a sweltering Summer in South Western Ontario this year with dry conditions that threaten crops and my potted plants. Thank goodness August has brought a bit of a reprieve with gentle showers and pop-up downpours! Time to reflect on CSCL and this issue of the "Canadian Leathercraft". I've been publishing this quarterly Newsletter since 2003 and really could not do it without the contributions of CSCL members. This edition has articles by Member-at-Large, Lauren McPherson. She has been instrumental in getting those members who do not belong to a CSCL Branch, but are CSCL members nevertheless, organized and participating in events. The Members-at-Large table at Annuals is just one example. Read Lauren's article about her trip to "A Canadian Site to Visit" and submit your own favourite site.

Also, one of Lauren's articles describes a project created by Student Member of CSCL, Joanna Malec. Joanna was the 2012 Winner of the Ontario Crafts Council Design, a very prestigious award for one of CSCL's youngest members. Be sure to read.

CSCL, as long as I have been a member, has always welcomed and mentored new and young leathercrafters – they are our future, clichéd though that may sound. I'm sure CSCL Fellow Paul Kitchener will agree, he continues to welcome the curious and talented young folks to the Mississauga Branch demonstration table. Likewise in Hamilton, Peter Grove and Sean Dalgetty provide guidance to, and generously share their skills with newcomers. In fact, CSCL members are our greatest asset in promoting the Society.

Norland Branch recently lost a treasured, long time member, Gloria Cousins. Our thoughts and prayers are with Carol Broumley and family. Carol remains a CSCL member.

Soon enough, the cooler temperatures of the Autumn will be approaching and outdoor activities will be replaced with indoor activities – perhaps a leather project for the next CSCL Biennial Exhibition to be held in 2013, or the next Annual.

"Canadian Leathercraft" is your source of information about CSCL and it's members. Check out the CSCL website at www.canadianleathercraft.org

As always, if you have questions, comments, or even a future article for this newsletter, contact your Editor, Madeleine Mitchell at madeleine@canadianleathercraft.org

**Memberships were due April 1, 2012
but it's not too late to sign on or renew**

contact: Tracey Howard

or email tracey@canadianleathercraft.org

Norland Leather Guild Member Passes Away

CSCL extends sympathy to the family of Gloria Cousins, who passed away July 31, 2012. Gloria was a longtime member of the Norland Leather Guild. Gloria was a member of the Happy Wanderers and volunteered with many service organizations in the Community. She received the City of Kawartha Lakes Senior of the Year award in 2007. Gloria was a Lay Reader of Christ Church, Cobocok.

Gloria's late husband, Art was also a leathercrafter and active in CSCL.

Her daughter, Carol Broumley, continues the family tradition as a member of the Norland Branch.

Highlights from Executive Council Meetings...

May 2012 highlights-

- New Slate for 2012-2014 Executive Council meets for first meeting
- Barb Chynoweth to be the Privacy Policy Officer for CSCL 's members.
- Planning already started for the 2013 Annual, to be hosted by Norland Branch.
- Biennial Exhibition in the Spring of 2013, to be held at the Woodstock Art Gallery.
- MAL Branch Report submitted by Lauren McPherson.
- Next meeting late September. See the Autumn Newsletter for more information.

A Canadian Site To Visit

By Lauren McPherson

MAGNETAWAN, Ontario: Advertised as site #19 on this downtown corner Chamber of Commerce billboard you will want to visit (one square above the bottom left corner) when you are north of Barrie. Follow the signs: Take Old Highway Road off Hwy 124, Poverty Bay Road East and travel down a Canadian forested single lane driveway into view of Poverty Bay, one of the hundreds of tiny Muskoka lakes. You have reached ***Windows to the North Gallery***. Explore the Canadian art for sale here: pottery, photography, wood, fiber, glass, jewellery, paintings. Thirty-three artists are celebrating women in art, an endeavour for employment and promotion that can be viewed online at www.windowstothenthe.com, 705-387-3085, Open Daily Mon-Sat. 10-5, Sun. 11-5.

To: All Members-At-Large

Send me a brief description of your **Canadian Site To Visit**. Use my MAGNETAWAN, Ontario paragraph in this issue for an example of a CANADIAN CRAFT SHOP. This can include recent art treasures, leather pieces and past travels. On your behalf, all submissions will be stored in my MAL library and pulled to contribute to quarterly *Canadian Leathercraft* issues. Electronic, printed material, photos: all formats are welcome. [Contact by mail: [REDACTED] London, [REDACTED] email: [REDACTED]]

*Yours truly,
Lauren*

Lauren McPherson
Members-At-Large Representative

CROSS DYEING By Irva Ford

[As Printed In Canadian Leathercraft, Volume XIX, No. 2, Fall 1970]

Rather than mixing dyes to obtain colours that are not manufactured for retail sale, the desired colours may be obtained by cross dyeing. The following chart may be of assistance when colouring your leather.

	Over:	Makes:
Brown	Orange	Havana Brown
Brown	Yellow	Light Brown
Brown	Purple	Seal Brown
Green	Violet	Light Blue
Green	Orange	Olive Green
Green	Light Blue	Peacock Green
Yellow	Blue	Green
Yellow	Green	Bright Green
Yellow	Light Blue	Light Green
Yellow	Brown	Golden Brown
Yellow	Purple	Green Brown
Yellow	Orange	Orange Yellow
Yellow	Pink	Peach
Yellow	Red	Bright Red
Red	Blue	Purple
Red	Dark Blue	Plum
Red	Light Blue	Garnet
Red	Dark Brown	Maroon
Red	Brown	Henna
Red	Purple	Wine
Red	Yellow	Scarlet
Red	Orange	Tangerine
Red	Lavender	Rose
Red	Grey	Taupe
Purple	Green	Medium Blue
Purple	Bright Red	Wine
Purple	Dark Green	Navy Blue
Dark Blue	Orange	Dark Brown
Light Blue	Dark Red	Garnet
Light Blue	Yellow	Light Green
Pink	Light Blue	Lavender
Pink	Orange	Deep Orange

[Editor's Note: Irva Ford was a respected Fellow in CSCL, Hamilton Branch through the early years. I remember her as a teacher and mentor in the 1970's]

BRANCH REPORT MAL

from May 25, 2012 Executive Meeting

MAL successfully reached our goal of raising money to purchase two 7-8 oz vegetable tanned leather pieces included on the Draw Table at the Convention. The full \$110 was attained from several MAL.

We MAL, are proud of the MAL who received ribbons and awards for their work including, Joanna Malec who won the coveted CSCL 2012 Ontario Crafts Council Design Award for her colourful sculpture titled HANDSTERPIECE.

Submitted by Lauren McPherson

How To Make A Leather Bird Carrier

By Lauren McPherson

A **Bird Carrier**, also known as an *octopus*, is the kind that carries the reward of successful bird hunting, for example the 5lb Canadian grouse, similar to a quail but with bigger feathers.

Although hunters might require different size carriers the finished size here is 9 ½ inches x 2 ½ inches cut from a piece of strong, flexible, 3-4 ounce veg-tanned leather. Five straps will carry five birds. Durable snaps on the carrier allow it to be fastened over your belt thus leaving your hands free.

Making a cardboard pattern is a good idea for marking the placement of the snaps, straps and slits. Using a ruler, draw the 12 ½ inch x 2 ½ inch outline onto the cardboard. Using something sharp like a needle poke the holes in the cardboard to mark the snaps, straps and slits. Cut out the cardboard pattern. Lay the cardboard pattern on the leather and mark all the holes on the leather. Use a #0 punch to punch these holes. Use a head knife, Xacto or other sharp knife to cut the straps and slits.

How to use the carrier: Form a loop by folding a strap up until the bottom of the slit is even with the top of the slit. Keep this point even. Working on a flat surface push the upper edge of each side outward (left and right) forming two flat loops. Pinch the exposed back of these loops, lift up, and pinch the earlier outward loops under the exposed back. Slip the bird's head in and cinch it down around the bird's neck. The bird's weight will hold it snugly.

How To Make A Leather Bird Toy

By Lauren McPherson et al

Bird toys was the theme of the evening when London Members-at-large gathered at the home of David and Dorothy McPherson for a summer BBQ. The get-together also provided an opportunity to present Joanna Malec with her Ontario Crafts Council Design Award she'd won at CSCL's 62nd Annual Convention in Burlington.

The fun and easy July leather project *How To Make A Leather Bird Toy* was demonstrated by Joanna. After recently acquiring a green cheek conure parrot, *Albert*, Joanna decided to try making some bird toys – with the simplest one being a knotted leather cord. Parrots love to untie knots with their beaks!

When each person was given a 54 inch long leather strip that was ¼ inch wide we learned that the strips 1/8 inch wide will tie tighter and look bigger. The leather must be veg-tanned to eliminate the risk of the bird ingesting harmful chemicals from chrome-dyed leather. That evening everyone made a simple knotted cord toy. Just fold the cord in half and tie a knot at the fold. Then tie a knot about 4 inches along each separate cord and/or continue knotting as often and frequent as you desire.

On one toy, Joanna showed how she'd used 1 inch x 1 inch or 2 inch x 2 inch squares (often referred to as *chips*) of veg-tanned leather that she'd leather-punched a centre hole in to pass the leather strip through. A couple of people tried knotting wooden beads from TUNDRA onto the cord. A cotton string tied through the top loop allows it to hang as a swinging toy.

In another toy, Joanna had knotted two cords together and the resulting 4 cords hanging down resembled a spider. Metal bells can also be strung onto the cords, but remove the jingle parts first as any zinc coating is dangerous. Apparently there is a market for bird toys, and they make a great gift for any bird owner. Two topics to Google are [homemade bird toys](#) and [How to make leather bird toys](#) that give such helpful hints as the use of food colouring to colour cardboard tubes and wooden chips in any toy for birds.

Albert, the parrot, in his cage, enjoys his leather toy
